22ft Center Console Fishing Boat   FOB Qingdao   USD15500/boat

This new model of 660 boat with low fuel consumption, easy to glide, suitable for a variety of occasions, and the reasonable deck layout:corridors around the middle bridge, make full use of the surrounding space, and equipped with comfortable seats and plenty of storage space

Main features

Good Airworthiness

The new, efficient and low-resistance hull has a long waterline, a beautiful boat stern and valgus-shaped surface lines, and has a very good airworthiness, comfort and stability, easy glider ride experience.

Low Fuel Consumption

The excellent high-efficiency, low-impedance hull requires only moderate horsepower to drive, with a 115hp outboard engine capable of reaching speeds in excess of 60km/h while minimizing fuel consumption.

Diverse choice

The boat has different choice for you: with or without the hardtop, fixed or adjustable hardtop. The adjustable hardtop with a carbon fiber column which can remove control to lift and down.

Enhanced Stability

Large flat rim gives excellent stability to the boat

Dynamic stability

Specially designed bottom side longitudinal strips increase buoyancy, reduce surface friction and improve dynamic stability.

Unlimited Vision

The middle cockpit of the boat provides comfort, shelter and large storage space, as well as plenty of walking space and unrestricted view, and provides comfortable fixed seats for 6 people.

Durability

The hand-laid multi-layer fiberglass structure makes the hull very strong and sturdy.
